RE: NOTICE OF CLASSIFICATION - Line of Credit Terminated

Dear Sir/Madam:

In accordance with Title 27:7-35.1 et. seq., and Regulations of the New Jersey Department of Transportation, you are hereby notified that the following CLASSIFICATION has been assigned to your firm by the Department:

Financial Capability
\$200,000,001 to Unlimited

Work Classification(s):

Project Rating(s):

5-Heavy Highway

\$200,000,001 to Unlimited

8b-Concrete Repairs

" " "

9k-Erection of Ornamental & Light Structural Steel

" " "

Your financial capability is based on (net working capital or net worth x 15) + (net book value of construction equipment less the value of any outstanding loans x 15) + (unsecured lines of credit in accordance with the Questionnaire x7) as determined by the Department from the information you submitted for the Close of Business on 12/31/20. See attachment for explanation.

Please be advised that the supplementary provisions (Project specific Specifications) for all present & future Bridge Painting contracts requires all contractors and sub-contractors to have valid Certificates SSPC-QP1 & SSPC-QP2 issued by The Society for Protective Coatings (<http://www.sspc.org/>) at the time of bid and duration of the contract.

NOTICE OF CLASSIFICATION

Allied Painting, Inc

Page 2

This CLASSIFICATION will be effective 11/8/21 and will expire 6/30/22.

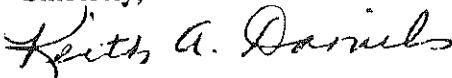

Your financial capability is defined as the dollar threshold on the maximum amount of a project rating, which is assigned by the Department pursuant to N.J.A.C. 16:44-3.6 upon examination of the contractor's Questionnaire and financial statement submitted by the contractor in accordance with this chapter. Project Rating is defined as the maximum dollar amount that a contractor shall be allowed to bid in a particular work type on an individual project.

Bids will only be accepted from a contractor classified with the Department pursuant to N.J.A.C. 16:44-3. Bids will only be accepted from a contractor who has been classified in at least one of the work types required in the project advertisement. Bids will be accepted from a contractor in an amount that does not exceed its project rating. When there is a question as to whether a bid is within the contractor's classification or, where it reasonably appears that a contractor may not have the classification that will allow it to bid on a project for which bids are being sought, the bid will be opened provisionally. If the bid is for a different work type or in a dollar amount greater than the contractor's maximum project rating, the bid will be rejected.

In order to be continuously eligible to bid on projects to be undertaken by this Department, your next Contractor's Financial and Equipment Statement should be submitted one month before the expiration date, but must be received at least 15 days prior to the date set for receipt of bids for which the classification will be used.

Requirements of New Jersey Administrative Code 16:44-12.1 and 12.2 must be complied with by all corporations classified with the New Jersey Department of Transportation.

Sincerely,

Keith A. Daniels

CONSTRUCTION CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital, domestic partner or civil union status, affectional or sexual orientation, gender identity or expression, disability, nationality, sex, pregnancy (including recovery from childbirth), atypical hereditary cellular or blood trait, genetic information, veteran status or liability for military service, or association with a person who is a member of a protected class as recognized by law. Except with respect to affectional or sexual orientation, gender identity or expression, atypical hereditary cellular or blood trait, genetic information or liability for military service, the contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital, domestic partner or civil union status, affectional or sexual orientation, gender identity or expression, disability, nationality, sex, pregnancy (including recovery from childbirth), atypical hereditary cellular or blood trait, genetic information, veteran status or liability for military service, or association with a person who is a member of a protected class as recognized by law. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting for the provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable, will in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital, domestic partner or civil union status, affectional or sexual orientation, gender identity or expression, disability, nationality, sex, pregnancy (including recovery from childbirth), atypical hereditary cellular or blood trait, genetic information, veteran status or liability for military service, or association with a person who is a member of a protected class as recognized by law.

The contractor or subcontractor, where applicable, will send to each labor union or representative or workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this Act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to employ minority and women workers consistent with the applicable county employment goals established in accordance with N.J.A.C. 17:27-5.2 or a binding determination of the applicable county employment goals determined by the Division, pursuant to N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, race, creed, color, national origin, ancestry, marital, domestic partner or civil union status, affectional or sexual orientation, gender identity or expression, disability, nationality, sex, pregnancy (including recovery from childbirth), atypical hereditary cellular or blood trait, genetic information, veteran status or liability for military service, or association with a person who is a member of a protected class as recognized by law, and that it will discontinue to use any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees as may be applicable to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job related testing as established by the Statutes and Court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal Court decisions.

In conforming with applicable employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading, and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital, domestic partner or civil union status, affectional or sexual orientation, gender identity or expression, disability, nationality, sex, pregnancy (including recovery from childbirth), atypical hereditary cellular or blood trait, genetic information, veteran status or liability for military service, or association with a person who is a member of a protected class as recognized by law, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor shall submit to the public agency, after notification of award but prior to execution of goods and services contract, one of the following three documents:

Letter of Federal Affirmative Action Plan Approval
Certificate of Employee Information Report
Employee Information Report Form AA302

The contractor and its subcontractors shall furnish such reports or other documents to the Div. of Contract Compliance & EEO as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Div. of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code at N.J.A.C. 17:27.

(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to attempt to hire or schedule minority and women workers directly, consistent with the applicable employment goal. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with the applicable employment goal, the contractor or subcontractor agrees to be prepared to hire or schedule minority and women workers directly, consistent with the applicable employment goal, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines or is so notified by the Division that the union is not referring minority and women workers consistent with the applicable employment goal.

(B) If the hiring or scheduling of a workforce consistent with the employment goal has not or cannot be achieved for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions consistent with the applicable county employment goals:

(1) To notify the public agency compliance officer, the Division, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area until such time as the workforce is consistent with the employment goal;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, to assure, consistent with the applicable State and Federal statutes and court decisions, that sufficient minority and women employees remain on the site consistent with the employment goal; and to employ any minority and women workers laid off by the contractor on any other construction site on which its workforce composition is not consistent with an employment goal established pursuant to rules implementing N.J.S.A. 10:5-31 et. seq.;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall determine the qualifications of such individuals and if the contractor's or subcontractor's workforce in each construction trade is not consistent with the applicable employment goal, it shall hire or schedule those individuals who satisfy appropriate qualification standards. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Division. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(ii) If the contractor's or subcontractor's workforce is consistent with the applicable employment goal, the name of any interested women or minority individual shall be maintained on a waiting list for the first consideration, in the event the contractor's or subcontractor's workforce is no longer consistent with the applicable employment goal.

(iii) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Division.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Division and submitted promptly to the Division upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the Public Agency Compliance Officer and the Division an Initial Project Workforce Report (Form AA 201) provided to the public agency by the Division for distribution to and completion by the contractor, in accordance with N.J.A.C.

17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the Public Agency Compliance Officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Division of Contract Compliance & EEO as may be requested by the Division from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Contract Compliance & EEO for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).
