

§ 4-16. ILLICIT CONNECTIONS TO STORMWATER SYSTEM.

§ 4-16.1. Illicit Connection. [Ord. No. 2005-08 § V; Ord. No. 2006-14 § 1]

An illicit connection is any physical or nonphysical connection that discharges domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater) to the municipal separate storm sewer system operated by the sewer authority, unless that discharge is authorized under a NJDES permit other than the Tier A Municipal Stormwater General Permit. Nonphysical connections may include, but are not limited to, leaks, flows, or overflows into the municipal separate storm sewer system.

No person shall discharge or cause to be discharged through an illicit connection to the municipal separate storm sewer system operated by the municipality any domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater).
